

## INSTRUCTION OF MOUNTING THE BALLOON

1

After unpacking put the balloon on the ground.

2

Connect the plug to the mains.

3

Remember not to cover the extractor fan.

4

Hide the rest of cables inside the balloon. Close the zip on the bottom of balloon.

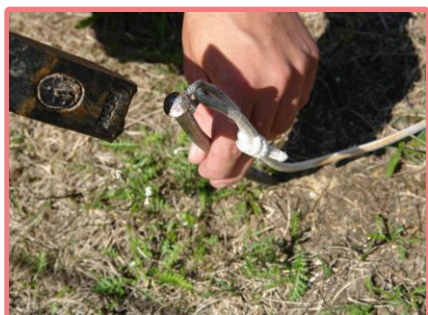

5

Wait a moment until the balloon will fill with air.

6

Stabilize the balloon with cords and tent-pegs.

7

Hammer the tent-pegs into the ground.

8

By the cord you can regulate the vertical of the balloon.
